He graduated from The Ecole Polytechnique in France and holds a PHD degree in Mechanical Engineering from the Ecole des Mines de Paris.

Guangzhe Chen

Global Director, Transport Practice and Regional Director, South Asia Infrastructure, World Bank

Guangzhe Chen, a Chinese national, is the Global Director for the Transport Practice in the World Bank's Infrastructure Practice Group. As Global Director, Mr. Chen provides leadership in the formulation and implementation of World Bank strategy and programs for sustainable road, urban, rail, logistics, water and air transport, and as well as key cross-cutting agenda such as road safety, climate adaptation/mitigation, gender, human capital development, disruptive technologies and financing. The Global Practice has a portfolio of approximately US\$45 billion in more than 100 countries, and about 280 staff.

From July 2019, in addition to his role as Global Director, Mr. Chen assumed the position of Regional Director for Infrastructure in South Asia region covering Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan and Sri Lanka. In this capacity, Mr. Chen oversees the formulation and implementation of the Transport and Energy financing and knowledge programs in the region. Prior to his current positions, Mr. Chen was the Senior Director for the World Bank's Water Global Practice from October 2016 to October 2018. Before that he served as World Bank Country Director for Ethiopia, in Addis Ababa, and subsequently for Southern Africa, covering Botswana, Lesotho, Namibia, South Africa, Swaziland, Zambia and Zimbabwe, based in Pretoria. He started at the World Bank as a task team leader and then sector manager in the transport sector, followed by serving as a sector manager in the urban, water and disaster risk management.

An economist by training, Mr. Chen has over 25 years of international experience in the field of sustainable development, infrastructure finance and management with the World Bank Group and the Asian Development Bank. Mr. Chen holds a graduate degree in Economics from Harvard University, USA, and B.A. in Economics from Zhongshan (Sun Yat-Sen) University, Guangzhou, China.

Riccardo Puliti

Global Director, Head of the Energy and Extractive Industries Global Practice and Regional Director, Infrastructure for Africa at the World Bank Group

Riccardo Puliti joined the World Bank Group as Senior Director, Head of the Energy and Extractives Global Practice in November 2016. In his role, Riccardo leads a team of about 400 professionals in their work developing policies and financing in the global energy and extractive industries. The Energy and Extractives practice has a portfolio of approximately USD 40 billion. On July 1, 2019, in addition to his role as Global Director, Riccardo assumed the position of Regional Director for all Infrastructure for Africa.

Prior to joining the World Bank Group, Riccardo was the Managing Director in charge of Energy and Extractive Industries at the European Bank for Reconstruction and Development, leading a group of 100 professionals with a portfolio of approximately EUR 11 billion.

Riccardo started his career at Istituto Mobiliare Italiano in 1987 before moving to Banque Indosuez and NM Rothschild where he worked in equity capital markets, always in the energy and infrastructure sectors. During his career, Riccardo has been a nominee or independent member of the board of several energy and extractive companies, including OMV Petrom (where he chaired its Risk and Audit Committee), Interra OJSC, Irkutsk Oil and Iberdrola Poland. He holds an MBA from Instituto Superior de Estudios de la Empresa (IESE) and postgraduate studies at the Kennedy School of Government (Harvard University) and Imperial College. Riccardo is fluent in five European languages.

**Paul Noumba Um,
Regional Director for Infrastructure for Middle East and North Africa at the World Bank.**

Paul Noumba Um was previously the Country Director for South Africa, Namibia, Lesotho, Botswana, Swaziland, Zambia and Zimbabwe, and prior to that, the Country Director for Mali, Niger and Chad. He has also served as the Sector Manager for Finance & Private sector Development for West and Central Africa, as well as in other positions in MENA and WBI. Paul holds a PhD in Economics from Rennes University, Master's Degrees in Engineering and Economics from France, and a BA in Engineering from the National Advanced School of Posts and Telecom, Cameroon. He joined the Bank in 1998, coming from France Telecom (Orange Labs).

Susanna Zammataro
Director General, International Road, Federation

In her capacity as Director General of the International Road Federation (IRF) in Geneva, Switzerland, Susanna Zammataro is responsible for developing and implementing strategic plans for the IRF, whose mission is to promote the development of roads and road networks that enable access and sustainable mobility for all.

Recently named as one of the 40 Most Remarkable Women in Transport by TUMI, she is the in-house expert on sustainability and responsible for the overall environmental programs and activities run by the IRF. These include the Greenhouse Gas Calculator for road infrastructure (CHANGER) and the Green Public Procurement Initiative and Innovative Practices for Greener Roads. Member of the UNECE Climate Change Expert Group on Adaptation she is also a Steering Committee Member of the Sustainable Mobility for All initiative (SuM4All) led by the World Bank.

Susanna is an untiring advocate for road safety. She is a member of the Advisory Board of the FIA High Level Panel on Road Safety and serving since 2012 as the Co-Chairperson of the “Safer Roads and Mobility” Pillar of the United Nations Road Safety Collaboration Group (UNRSC), a global multi-stakeholder partnership whose aim is to facilitate international cooperation and to strengthen global and regional coordination.

Gavin Dunnett
Director of Mobility, European Investment Bank

Gavin Dunnett has spent his entire professional career in the planning and implementation of major transport projects. After graduating in civil engineering, he joined renowned engineering consultant ARUP, where he undertook postgraduate studies in transport planning and economics. After completing his professional training in Scotland, he developed his career in international transport projects, including designing parts of the Thracian and Anatolian motorways in Turkey. He eventually became a regional director of ARUP and was elected as a Fellow of the Institution of Civil Engineers in 2003. After over 20 years in transport consultancy he joined the European Investment Bank as a sector specialist in transport, working on the technical due diligence of a variety of European and international transport projects, including urban tram and light rail projects in Europe, North Africa and Turkey. In 2011, he took over responsibly for the civil aviation and maritime sectors of the Bank’s technical directorate before becoming overall Head of the Mobility department in 2016.

Peter Kronberg
Safety Director, Volvo Group

Peter Kronberg is the Safety Director of the Volvo Group. In this role, he is responsible for directing the Volvo Group sustainability and policy agenda relating to traffic and vehicle safety. The work includes determining how Volvo Group should use its expertise and technology leadership in areas such as active and passive safety, automation and connectivity to address the global societal transport challenges, and maintaining an active dialogue with political, academic and industrial stakeholders to accelerate progress in the sustainable transport domain, as well as forming international partnerships and programs. Peter also acts as a spokesperson for Volvo Group regarding safety.

Shantanu Mukherjee
Integrated Policy Analysis Branch (IPAB), United Nations Department of Economic and Social Affairs

Shantanu presently heads the integrated policy analysis branch in the Sustainable Development Goals Division within the UN's Department for Economic and Social Affairs (UN-DESA). He is a micro-economist with interests in poverty, health and sustainability. Apart from cross-cutting SDG analysis, a particular area of focus in his current work is enhancing the impact of science, technology and innovation in advancing sustainable development. In this capacity, his team leads the UN support for the Global Sustainable Development Report (GSDR) and the Technology Facilitation Mechanism (TFM).

Prior to this, he led the research and writing unit of the UN Development Programme (UNDP)'s Human Development Report through two report cycles. This was preceded by a stint as head of UNDP's global MDG policy work, which was marked by extensive collaborations with the World Bank and other development entities across the UN system. In that position, he worked with national planning, finance and various sector ministries in many countries in Africa, Asia and Latin America. Some of his most interesting experiences during this period were in Bangladesh, Cambodia, Indonesia, Jordan, Myanmar, Pakistan, Ghana, Togo and Yemen.

Shantanu began his career with the Indian Government in different areas of finance as well as development policy planning and implementation. He earned a PhD in Economics from Princeton University, and also holds advanced degrees in Public Policy and Physics.

Nancy Vandycke
SuM4All Program Manager, World Bank

Dr. Nancy Vandycke is Economic Advisor of the Transport Global Practice in the World Bank. She led the creation of and currently heads “Sustainable Mobility for All”—a global platform that unites 50 international organizations worldwide to change the future of mobility. Dr. Vandycke also leads the strategic and global analytical portfolio of the Bank in transport, including impact evaluation, global tracking framework, and the Knowledge Note series. She is a member of the World Economic Forum’s Global Council on Advanced Energy Technologies and of the Multilateral Development Bank’s Group on sustainable transport. Before joining the World Bank, she worked at the International Monetary Fund and at the Center for Economic Performance and was adjunct professor of economics at Georgetown University and the London School of Economics, from where she holds a Ph.D. in Economics.

Thomas Deloison
Director Mobility, World Business Council for Sustainable development

Thomas Deloison is the Director, Mobility at the World Business Council for Sustainable development since July 2018. This is consequent to 15 years of experience at Nissan across several functions from Aftersales to Product Strategy and Planning, Marketing Strategy, Europe’s Chief Financial Officer office, Program Management Office and Corporate Strategy Division. The breadth of my responsibilities over time provided me with a deep understanding of the automotive industry a comprehensive point of view on, and a prime exposure to, the current disruption occurring in mobility.

Sheila Watson
Deputy Director (Environment and Research), FIA Foundation

Sheila Watson is Deputy Director (Environment and Research) at the FIA Foundation, a UK-based Charity which is committed to promoting safe sustainable mobility across the world (www.fiafoundation.org). She is also Executive Secretary to the Global Fuel Economy Initiative, which seeks to support the development of fuel economy policies across the world (www.globalfueleconomy.org), and the Real Urban Emissions Initiative (TRUE), which exposes the real world emissions of the cars on our roads. (www.TRUEemissions.org) An economist, with many years' experience as Senior Special Adviser to the UK Labour government, former roles include Deputy Director of the Centre for Local Economic Strategies, and Policy Researcher at the Institute for Fiscal Studies. Sheila has an Honors Degree from the University of Oxford, and an MSc in Economics from Birkbeck College, University of London. Sheila is married, with 3 sons, and lives in London.

Daniel Moser
Management Head of Transformative Urban Mobility Initiative, GIZ

Daniel Moser is Management Head of the Transformative Urban Mobility Initiative (TUMI) at GIZ. In his position he provides management and strategic development of the initiative and its activities. TUMI is shaping the future of sustainable urban mobility through diverse opportunities around the world. The initiative is the joint endeavor of ADB, BMZ, CAF, C40, GIZ, ICLEI, ITDP, KfW, SLOCAT, UN-HABITAT and WRI to enable substantial finance, scale pilot projects and provide knowledge & policy. He is also closely associated with various activities in sustainable urban mobility at GIZ. As a consultant and advisor, he is directing sustainable urban mobility programs and interdisciplinary projects comprising transport, governance, city planning and urban technology. In his current position he is also advising the Government of Germany and the Federal Ministry of Economic Cooperation and Development on sustainable urban mobility.

Clotilde Rossi di Schio
Energy Efficiency Specialist, Sustainable Energy for All

Clotilde Rossi di Schio is part of SEforALL policy team, where she works as Specialist in the Energy and Transport for and Cooling All initiatives. Prior to joining SEforALL, Clotilde had been working in the energy field in the private sector for more than 12 years, part of McKinsey's German office and Mitsubishi Heavy Industry's Turboden spa. Until recently, she has been collaborating as research assistant with the SIPA Center on Global Energy Policy at Columbia University, where she researched about decarbonization strategies through electrification. Clotilde has an MBA in Finance from Columbia Business School and a Master of Science in Mechanical/Industrial Engineering from Vienna University of Technology.

Mauricio Rodas
Former mayor of Quito

Mauricio Rodas is a JD from Universidad Católica de Quito. He also holds two master's degrees in Government Administration and Political Science from the University of Pennsylvania. He started his professional career with the UN's Economic Commission for Latin America and the Caribbean in Santiago de Chile and Mexico City. Later he worked as a policy consultant for the Mexican government. In 2007, he founded and served as the Executive Director of Ethos Public Policy Lab, a think tank based in Mexico ranked among the most influential in Latin America by the Global Go To Think Tank Index Report.

In 2011, Rodas returned to Ecuador and founded SUMA, a national political party. In 2013, he ran for president of Ecuador; the following year was elected as mayor of Quito (2014-2019). During his period, Rodas led the construction of the first metro line in Quito and in Ecuador. He was the hosting mayor of the UN's Conference on Urban Sustainable Development – Habitat III. He also had an active leadership role in the main city networks: two terms as world co-president of UCLG, member of the global boards of C-40 Cities Climate Leadership Group, ICLEI, and the Global Covenant of Mayors for Climate and Energy. He is a Young Global Leader and member of the Global Future Council on Cities and Urbanization of the World Economic Forum (WEF). In 2019, he was named one of the 100 Worlds' Most Influential People on Climate Action by Apolitical; he also received the University of Pennsylvania's World Urban Leadership Award.

Currently, he is a Visiting Fellow at the University of Pennsylvania where he is working on the “Cities Climate-Resilient Infrastructure Financing Initiative –C2IFI.” C2IFI aims to develop a knowledge hub to consolidate information about financing opportunities for cities and facilitate access to these resources.

Karen Vancluysen
Secretary General, POLIS Network.

Karen was appointed as Secretary General of Polis in September 2014, after having been the network's Research Director for 8 years. Prior to joining POLIS in 2004, she was Network Manager at ACCESS-EUROCITIES for a New Mobility Culture and project manager at Langzaam Verkeer, a Belgian centre for mobility management. Since 1998, she has been involved in urban mobility networking, innovation and policy activities as well as a wide range of European urban transport research projects. You can contact her in English, Dutch and French.
